

Model shown: PL-15

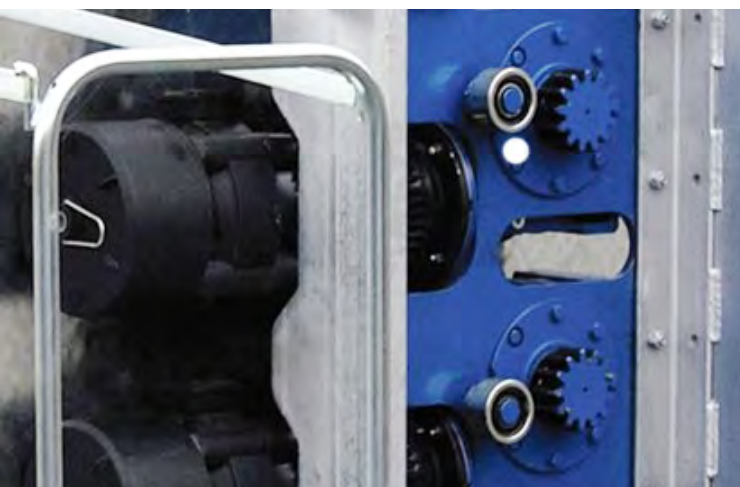

### EASE OF OPERATION AND PRODUCTIVITY

Torgar PL-15 EXT transport platform distinguishes itself by its ease of installation and operation. It is also the most cost effective vehicle to transport subcontractor workers and material such as metal framing and finishing, doors and windows, HVAC and plumbing, electrical, etc. With an interior length of more than 13 feet, that elevator allows the transport of drywall panels of different dimensions. It can also be used for debris removal.

Designed for the hardest working conditions, the PL-15 EXT requires a minimum maintenance and is reliable and versatile. It includes several long lasting and safety features such as an emergency brake installed on an independant pinion; tube and clamps wall ties; a lateral side loading access and a base mounted on wheels and leveling spindles.

Some components such as a landing gates of 43 inches height with electromechanical interlock limit switch, a 43 inches height base enclosure that propose a security distance of 20 inches to the cabin, and a telescopic anchoring with tightening screws for a strong support, are optional.

The PL-15 EXT is fully modular. It includes two 20 inches removable extensions. The removal of these extensions can increase the payload of the elevator to 4 400 lb.

### TECHNICAL DATA

	IMPERIAL	METRIC
STANDARD CAR LENGTH	13 FT 11 IN	4,2 M
PAYLOAD	3 300 LB	1 500 KG
NUMBER OF PERSONS	UP TO 7	
TRAVEL SPEED	0-39 FT / MIN	0-12 M / MIN
MAXIMUM HEIGHT	394 FT	120 M
STANDARD DISTANCE BETWEEN ANCHORS	20 FT	6 M
LIFTING SYSTEM	RACK AND PINION (MODULE 8)	
TYPE OF ENGINE (POWER SUPPLY)	ELECTRICAL MOTORS (3 PHASE 480V / 60HZ)	
INTERNAL CAR DIMENSIONS (L X W X H) / WEIGHT	13 FT 2 IN X 5 FT X 6 FT 10 IN / 3 970 LB	4,0 M X 1,5 M X 2,1 M / 1 800 KG
MAST SECTION DIMENSIONS (L X W X H) / WEIGHT	23 1/2 IN X 23 1/2 IN X 5 FT / 187 LB	0,60 M X 0,60 M X 1,5 M / 85 KG
TYPE OF OPERATION	CONTROL PANEL WITH PUSH BUTTONS	
STANDARD COMPLIANCE	ANSI 92.10; CSA B354.12
